

Intuitive Tarot

Introduction

Welcome!

We're so happy to have you on board for this enlightening journey to tarot mastery!

We encourage you to open your heart, tune into your soul, and move forward with confidence and optimism. You don't have to wait 'til you have all the facts to pull a card and see what it tells you. In fact, we encourage you to lay out a spread as often as you can and see where your intuition leads you.

At the end of this course, you'll be amazed at how far you've come. To record your progress, we encourage you to keep a journal and print out our tarot journal pages.

- Keep a history of your readings.
 - Focus on one card at a time and add insights and impressions.
 - Express yourself with drawings, poetry, and writing inspired by the cards.
- 

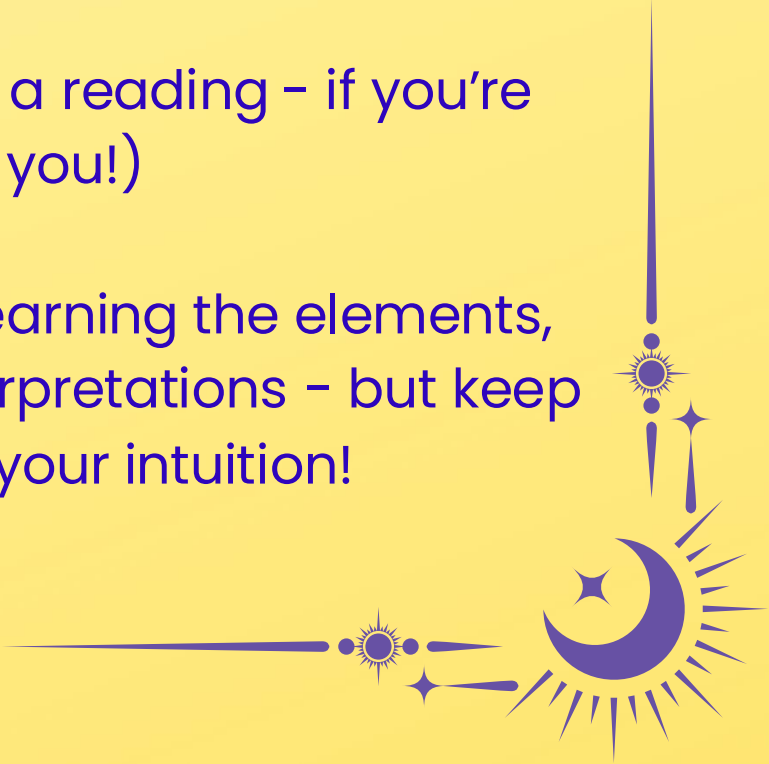

Beginning Your Tarot Journey

There are 78 cards in a standard tarot deck.

Some will resonate with you, the card reader, more powerfully than others, and you'll notice patterns - for instance, some cards will appear in readings more often than others or will repeat for certain recipients.

(Note: When we refer to recipients, that is anyone receiving a reading - if you're reading your own cards, the recipient will be you!)

The cards have clues to help you decipher their meaning. Learning the elements, symbols, and numbers will help you recall the traditional interpretations - but keep on mind, the most profound insights will come from your intuition!

The Tarot Deck

The Major Arcana: 22 Cards from 0 - 21

The Fools Journey

They hold the most weight and significance in the reading.
