of Life, Rewards,
New Beginnings

Reversed Cards

When it comes to reversed cards, you have options!
Use your intuition to choose which one applies (or not):

Opposite Meaning: If you know your card's upright meaning, you can discern the reversed meaning - but be careful. Not all reversed cards are pure opposites. Let your heart guide you.

Blockage: A reversed card may indicate that the recipient is blocking the upright message from manifesting - or that the event is dependent on something else happening first.

Internal Shift: The message may not be about something external - like a new job, relationship, or move. A reversed card may indicate an internal change is needed - a new attitude or a new approach to dealing with the world.
